Guidelines for Assignments

There are two types of assignments;

- (1) Group presentation and report, and
- (2) Individual essay (for PhD students only).

1. Group Presentation (10%): Presentation (5%), Report (5%)

You have to set up a group consisting of not more than 4 persons per group. Your group should then decide/select a topic (from Topic 2-Topic 14 of the course contents) to be discussed and presented. You and your group members have to specifically choose a specific subject matter of the topic selected. Your presentation should include discussion of some theoretical aspects of the topic and the related data/empirical findings that support them.

Group presentation will begin after mid-semester break (weeks 8). The due date for submitting the full essay is before the final exam of the course. Please make sure the final essay is not more than 15 pages using 1.5 spacing (Times New Roman).

2. Individual Essay (10%): For PhD students only

You have to compare, criticize and synthesize at least two recent articles (from journal) related to any topic in the course contents. The articles/journal should be from the ones that are indexed in ISI/SSCI (economics). At the moment, there are 304 journals indexed in ISI/SSCI (Economics). Please refer to the library website for the detailed information. You can choose either the theoretical or empirical articles or combination of them.

In writing the essay, you should discuss (compare, criticize and synthesize) the following:

- (a) Motivation/research question
- (b) Research design/theoretical framework
- (c) Estimations results/calibration
- (d) Summary and conclusion
- (e) Comments or suggestions

The due date for submitting the final essay is before the final exam of the course. Also, please make sure the final essay is not more than 10 pages using 1.5 spacing (Times New Roman).

All the best and good luck.
