Tasik Chini Exploration - Indigenous Experience -

Tasik Chini, the second largest fresh water lake in Malaysia is the land of Orang Asli typically known as Orang Asli Jakun.

The Jakuns normally reside around the lake, whereby their livelihood and socio-economic activities are highly dependent on natural resources, fauna and floras, richly found in the areas.

Besides being a central settlement for the Jakun's community in

Malaysia, Tasik Chini is also renowned as the tourists' attraction, especially among the nature lovers. Around the Chini Lake, there are four village of Orang Asli which are Kg Gulum, Kg Tanjung Puput, Kg Cendahan and Kg Melai.

Tasik Chini has initiated knowledge-based programs in order to promote and provide site specific knowledge and experiences.

Tasik Chini Exploration - Forest Experience -

The PPTC trail is one of the practical learning places for visitors. It is important as it has a clear trail path with variety of unique forest trees.

This trails as an attraction to the researchers, university students and students to see the diversity of flora and fauna as they learn the techniques of forest tree identification and find out the

commercial value of forest trees in the Lake Chini.

Tourism education is more effective for tourists as they can see, touch and appreciate about the lowland tropical rainforest.
