

# POSTGRADUATE STUDIES AT DEPARTMENT OF ANATOMY, FACULTY OF MEDICINE, UNIVERSITI KEBANGSAAN MALAYSIA

*Anatomy is one of the fundamental subjects in medical curriculum. Undertaking a postgraduate program in Anatomy allows one to gain an understanding about the human body and apply these skills in educational and healthcare settings.*

The Department of Anatomy is one of the earliest preclinical departments established in 1973 in line with the establishment of the Faculty of Medicine, Universiti Kebangsaan Malaysia. Currently, the department is in the Preclinical Building, Chancellor Tuanku Muhriz Hospital, UKM Medical Center, Kuala Lumpur. Apart from actively involved in teaching of undergraduate students from Doctor of Medicine and Bachelor of Nursing (Hons), the department also offers various postgraduate programs:

## RESEARCH PROGRAMS:

### DOCTOR OF PHILOSOPHY

**DURATION:** 3 years (Full-time); 4 years (Part-time)

**INTAKE:** Throughout the year

<b>FEES:</b>	<b>Malaysian students:</b>	<b>International students:</b>
	RM 5,134 (First semester); RM 4,124 (Subsequent semester)	RM 12,470 (First semester); RM 10,760 (Subsequent semester)

### MASTER OF MEDICAL SCIENCES

**DURATION:** 2 years (Full-time); 3 years (Part-time)

**INTAKE:** Throughout the year

<b>FEES:</b>	<b>Malaysian students:</b>	<b>International students:</b>
	RM 4,009 (First semester); RM 2,999 (Subsequent semester)	RM 11,735 (First semester); RM 10,325 (Subsequent semester)

## MIXED MODE PROGRAM:

### MASTER OF MEDICAL SCIENCES (ANATOMY)

**DURATION:** 2 years (Full-time)

**INTAKE:** September

<b>FEES:</b>	<b>Malaysian students:</b>	<b>International students:</b>
	RM 5,340 (First semester); RM 4,330 (Subsequent semester)	RM 13,785 (First semester); RM 12,375 (Subsequent semester)

## Areas of study

We offer the following research areas:

- Bone metabolism
- Wound healing
- Metabolic syndrome
- Neurodegenerative diseases
- Intervertebral disc
- Tissue engineering & regenerative medicine
- Stem cell biology
- Stress enzymes
